# AMOCEAB Objectives

---

AMOCEAB aims to raise specific competences in the fields of Circular Economy and BioEconomy, through the establishment of a Transnational Network, and a Master's Degree Programme in the ADRION Area.

## Specific Objectives

1. Enhance the capacity of the involved universities and supporting business organisations to develop solutions and knowledge focused on the Circular Economy and Bio-Economy → [Creation of AMOCEAB Transnational Network](#)
2. Develop a joint academic path, aimed at training and introducing on the market, new expertise on Circular Economy and Bio-Economy → [Creation of a Master's Degree Programme](#)
3. Promote and disseminate the new academic path, to considerably increase the capacity of universities and business support organisations to produce expertise in Circular and Bio-economy solutions → [Promote the Master's Degree](#)

*Belgrade, May 5, 2023.*

# Main topics

- Environmental Engineering
- Biotechnology
- Biodiversity
- Circular Economy
- Social Impact
- Sustainable business models
- Digitalization

The Master will have a **practical cut, training students with innovative activities and compulsory internships**, necessary for the creation of new **professional figures specialized in Circular and Bio-Economy**, to be used as "**agents of change**" by public and private entities, in the ADRION area

Belgrade, May 5, 2023.
